Aidacare & NSW Health

Aidacare are proud to be recognised as a NSW HealthShare / EnableNSW contracted service provider for a large range of products included in the recently announced Beds and Mattresses contract. Our commitment to all NSW HealthShare stakeholders including prescribing health care professionals and most importantly, the NSW HealthShare client, is to provide the very best service and product quality available.

For the healthcare prescriber, Aidacare offer industry leading support to assist in the provision of equipment for your clients.

- All contracted products are available for trial, anywhere in New South Wales, to enable assessment of suitability for your clients specific needs. Our equipment consultants can meet with you at any location, including client's private homes, to demonstrate and trial items.
- Dedicated NSW HealthShare display stock located in each of the Aidacare showrooms is available to enable prescribers to meet with clients on-site to trial and assess all required items in a professional environment.
- Many Aidacare showrooms even offer prescribers use of a private office and meeting room to utilise while meeting with clients or just to catch up on admin and reports.
- Specialist Complex Rehab & Seating staff to assist and support with prescription of customised and specialised equipment.
- Clinical education and support via the Aidacare Professional Training program and workshops.
- Service and repair of all contracted items with our workshop and mobile technicians.

General customer service and support including the booking of trials and any general advice and information required.

Our electronic catalogue is available for download at www.aidacare.com.au/globalassets/resources

For information on any of the extensive range of products available from Aidacare, please browse the complete online Aidacare catalogue at www.aidacare.com.au

For additional information, please contact your local Aidacare office directly on 1300 133 120 or email nswhealth@aidacare.com.au

EnableNSW provides equipment and services to people in NSW with chronic health conditions or disability to assist them with mobility, communication and self-care. We also provide assistance for people who need to travel significant distances for specialist medical care.

Aids and Equipment Program - The Aids and Equipment Program is a NSW Government initiative to assist eligible residents of NSW, who have a life-long or long-term disability, to live and participate within their community by providing appropriate equipment, aids and appliances.

Information on eligibility for the program, the range of equipment available, the lodgement of applications, mutual responsibilities and expectations, and steps for complaints and appeals is outlined in the Policy Directive - "Assistive Technology for Communication, Mobility, Respiratory Function & Self-Care": https://www1.health.nsw.gov.au/PDS/pages/doc.aspx?dn=PD2011_027

People with a disability interested in seeking further information about the program should discuss their query with a healthcare provider, or Enable NSW on 1800 ENABLE (1800 362 253)

As part of HealthShare NSW, EnableNSW is responsible for the administration of NSW Health disability support and other assistance programs including:

- Aids and Equipment Program
- Continence Assistance
- Home Respiratory Program (HRP)
- Prosthetic Limb Service (formerly known as ALS)
- Specialised Equipment Essential for Discharge (SEED)

For more information, visit the EnableNSW website: <http://www.enable.health.nsw.gov.au/>

Hospital Beds

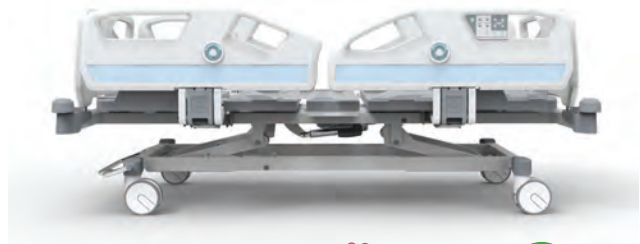

Aspire Elite Ward Bed

- Designed and Manufactured in Europe with both patient and Caregiver in mind
- Provides clinical benefits for patients and easy and intuitive to use
- Split safety sides with integrated controls as standard
- Angle indicators provide easy to read information for crucial head elevation measurement requirements
- Easy to service and maintain
- Strong, durable and long lasting
- Integrated Bed Extension
- ABS Bed Surfaces
- Electric platform, height and Trendelenburg adjustment
- Locking of functions by nurse control panel
- Mechanical CPR by the handles on both sides of back rest
- Electrical CPR in 1 push
- Fowler and Vascular Positions
- Manual knee mechanism by gradual adjustment
- Easily removable fixed head / foot boards and side rails made from polypropylene material
- Standard Inclusions: IV Pole, Catheter Hooks & Integrated Controls in Side Panels

Split Safety Sides with Integrated Control - Included

Code	BEB050130
Overall Length	2000 - 2200mm
Overall Width	1060mm
Overall Height	385 - 775mm
Patient Surface Length	2000mm
Patient Surface Width	860mm
Backrest Angle	65°
Knee Bend Angle	35°
Trendelenburg	-14° to 14°
Castor Size	150mm
SWL	250kg

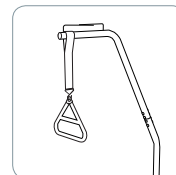

Included Accessory

IV Pole (BEA826105)

Optional Accessories

Self Help Pole (BEA826100)

3/4 Folding Side Rails (BEA826110)

Hand Control (GSP504505)

Malvestio Botero Bariatric Ward Bed - 400kg

BIOCOTE

Antibacterial frame coating for improved infection control

Attendant Control Panel

Single Touch Functions for Speed and Simplicity

Integrated Bed Length Extension
180mm of extension to cater for taller patients

The specific bariatric design focus offers width and length adjustable deck to manage changing needs in both ward and respite environments.

- Integrated tool-free bed width extension of 1020-1220mm
- Integrated bed length extension of 2000-2180mm
- Low height of 380mm
- Antibacterial powder coating for improved infection control management
- Backrest translation (autoregression) reduces compression of the thoracic and abdominal areas as the backrest is raised and alleviates shear and pressure for improved skin integrity
- Compatible with all leading bed movers
- Attendant control panel with intuitive pre-programmed single touch functions for speed and simplicity
- 150mm Tente Castors
- Central locking castors with integrated directional lock
- Full Trendelenburg functionality
- Integrated folding side rails
- Removable width adjustable head and foot panels
- Standard Inclusions: ACP, Battery Backup, Width Adjustment & Antibacterial Frame

Code	BEB050200
Overall Length	2260 - 2440mm
Overall Width	1020 - 1220mm
Overall Height	380 - 850mm
Patient Surface Length	2000 - 2180mm
Patient Surface Width	1020 - 1220mm
Backrest Angle	0° to 70°
Knee Bend Angle	0° to 30°
Trendelenburg	-17° to 17°
Castor Size	150mm
SWL	400kg

Optional Accessory

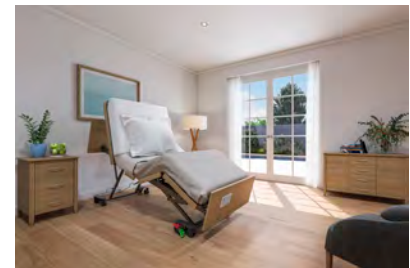

Malvestio Botero Bariatric Ward Bed Mattress - 400kg (BEM050200)

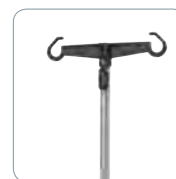

Aidacare FL250 Floorline Bed

- **Low Height** - With its impressive low height of 110mm, injury to the resident can be significantly reduced or avoided in the event of a fall from bed, therefore reducing the need for side rails
- **ExitSafe** - By pushing the ExitSafe button the FL250 moves to a flat and ergonomic position at the optimum height for resident ingress/exit
- **SmartDescent** - Automatically slows descent speed over the final 300mm of lowering to the floor level, allowing possible impingements to be identified and moved
- **BrakeFirst** - Brakes automatically lock when bed reaches its lowest height. Brakes are located within the footprint of the bed minimising any trip hazard for the caregiver and resident alike
- **AutoRegression** - Helps to reduce sacral pressure, shear forces and abdominal compression during bed profiling
- **Chair Positioning** - For improved pressure management and respiration. Also a more comfortable dining and sitting position
- **Integrated underbed lighting, extendable patient surface and full +/- Trendelenburg functionality**

Code	BEB046100 (Single)	BEB046150 (King Single)
Patient Surface	2000mm x 900mm	2000mm x 1060mm
Overall Length	2088mm to 2288mm	
Length Extension	100mm/200mm	
Overall Width	900mm	1060mm
Patient Surface Height Range	110mm to 740mm	
SWL	250kg	
Backrest Range	0 - 60°	
Knee Bend Range	0 - 35°	
Underbed Clearance	Variable. Minimum 30mm	
Mattress Platform	4 Sections	
Product Weight	105kg	115kg

Mattress Overlays & Replacements

Aspire Lifecomfort Active Air 5 Mattress Overlay

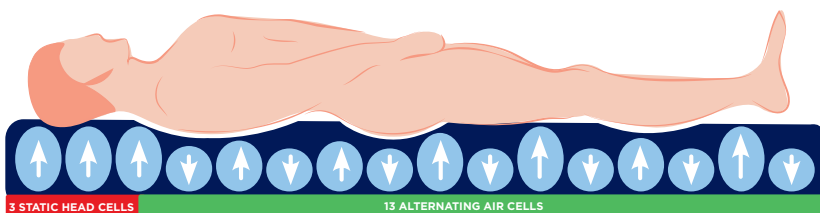

- Digital Pump – The Easy-to-read LCD screen provides clear and precise information on cycle time, operating mode and fault codes to assist with troubleshooting
- AutoLock – Control panel automatically locks after 30 seconds, preventing accidental mode changes
- AutoDetect – Based on the user’s weight and size, appropriate pressure output is automatically set, ensuring optimal care and protection
- Continuous Low Pressure (CLP) – When activated, this mode increases user immersion and envelopment
- 24hr Transport Mode – In the event of a power failure, this feature provides a security buffer allowing patients to remain on an inflated surface until power is restored
- Workplace Health & Safety - The power cord is retained within the overlay eliminating its potential as a trip hazard
- Pressure Care Outcomes - Intelligent cell design maximises the duration of pressure reduction in the alternation cycle

Rapid Deflation
CPR Valve

Digital Pump

Code	PTM639200 (Single)	PTM639210 (King Single)
Overall Length	2000mm	
Overall Width	850mm	1050mm
Overall Height	130mm	
Number of Cells	16 (incl 3x static head cells)	
S.W.L	175kg	
Pump	Digital	
Warranty	2 years pump / 1 year mattress	

H Suitable for **high** risk patients

Overall Length	2000mm	
Overall Width	900mm	1050mm
Overall Height	200mm	
Number of Cells	20 (incl 3x static head cells)	
S.W.L	200kg	
Pump	Digital	
Warranty	2 years pump / 1 year mattress	

Aspire Lifecomfort Active Air Acute 8 Mattress Replacement

V Suitable for **very high** risk patients

Rapid Deflation
CPR Valve

Digital Pump

- Dual Compressor Digital Pump – The Easy-to-read LCD screen provides clear and precise information on cycle time, operating mode and fault codes to assist with troubleshooting
- One in three alternating air cycle provides acute level therapy for maximum pressure redistribution and wound management
- AutoDetect – Based on the user's weight and size, appropriate pressure output is automatically set, ensuring optimal care and protection
- AutoProtect – When the head of the bed is raised to 45° or more, air pressure automatically increases to prevent bottoming out
- Continuous Low Pressure (CLP) – When activated, this mode increases user immersion and envelopment

- 24hr Transport Mode – In the event of a power failure, this feature provides a security buffer allowing patients to remain on an inflated surface until power is restored
- Workplace Health & Safety – The power cord is retained within the overlay eliminating its potential as a trip hazard
- Pressure Care Outcomes – Intelligent cell design maximises the duration of pressure reduction in the alternation cycle

Code	PTM639400 (Single)	PTM639410 (King Single)
Overall Length	2000mm	
Overall Width	900mm	1050mm
Overall Height	200mm	
Number of Cells	24 (incl 3x static head cells)	
S.W.L	250kg	
Pump	Digital	
Warranty	2 years pump / 1 year mattress	

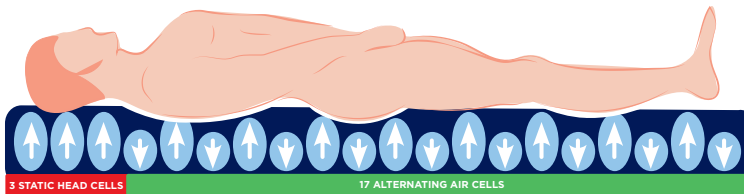

V Suitable for **very high** risk patients

Rapid Deflation CPR Valve

Digital Pump

Aspire Lifecomfort Active Air Bari 10 Bariatric Mattress Replacement - 450kg

- Quick Inflation Blower Pump - High powered mattress pump ensures rapid inflation of mattress for quick use and ensures constant high powered air flow which is extremely important for bariatric care.
- Turning Cycle - With the ability to turn a patient, the BARI 10 ensures for safe patient transfer and lateral movement, improving manual handling and wound therapy outcomes.
- AutoDetect - Based on the user's weight and size, appropriate pressure output is automatically set, ensuring optimal care and protection
- AutoProtect - When the head of the bed is raised to 45° or more, air pressure automatically increases to prevent bottoming out
- Continuous Low Pressure (CLP) - When activated, this mode increases user immersion and envelopment
- 1 in 2, 3 or 4 alternating air cycles provides acute level therapy for maximum pressure redistribution and wound management.
- Workplace Health & Safety - The power cord is retained within the overlay eliminating it's potential as a trip hazard
- Pressure Care Outcomes - Intelligent cell design maximises the duration of pressure reduction in the alternation cycle

S.W.L
450kg

S.W.L	450kg		
Pump	Digital		
Warranty	2 years pump / 1 year mattress		

Aspire Lifecomfort Hybrid Acute Mattress Replacement

M Suitable for **medium** risk patients

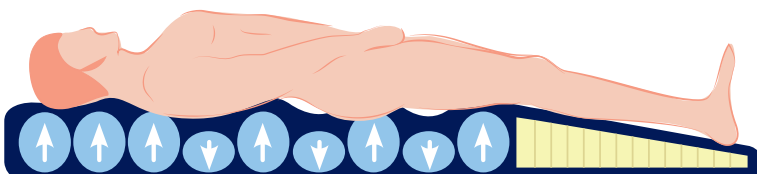

Additional Digital Pump (PTM638030) for an active support surface

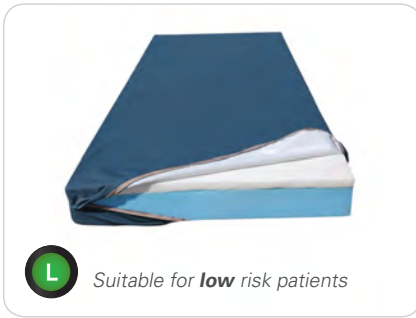

- Self Adjusting Pressure Redistribution - In non-powered mode, nine interconnected foam filled cells allow air to move freely between them via the user's body movements
- Active Support Surface Solution - By connecting the pump, the mattress converts to an active support surface
- Active Pressure Redistribution - In powered function, the Alternating and Static modes become available
- Memory Foam Top Layer - Integrated memory foam overlay improves immersion, envelopment and comfort
- Intelligent Hose Management - When not in use the air-hose can be stored internally, reducing infection control and OH&S issues
- Integrated Shear Reduction - The memory foam overlay moves independently of the underlying cells, reducing shear as the bed profiles
- Optimised Heel Protection - A 12° tapered heel zone redistributes pressure up the lower leg, away from the vulnerable heel region. The castellated surface collapses in a wave-like movement reducing shear
- CPR Compatible - In non-powered mode, the foam-core cells allow CPR to take place. When in powered mode, simply disconnect the pump to facilitate resuscitation

S.W.L
230kg

Code	PTM638020 (Single)	PTM638025 (King Single)
Overall Length	1980mm	
Overall Width	895mm	1050mm
Overall Height	170mm	
Number of Cells	9 (incl 3x static head cells)	
S.W.L	230kg	
Digital Pump	PTM638030	
Warranty	2 years pump / 1 year mattress	

L Suitable for **low** risk patients

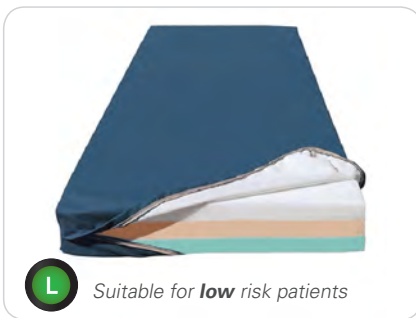

Aspire Lifecomfort Foam Mattress

- Pressure care mattress
- Two layer foam support design for comfort and support
- Full size memory foam overlay
- Two way waterproof stretch cover
- Vinyl bottom cover
- Three sided zip for easy cover removal
- Stitched zipper cover with waterproof flap for excellent hygiene

Patient Trolleys

Aspire Advanced Electric Emergency Stretcher

- Electric operated lift, tilt, back raise, Trendelenburg and reverse Trendelenburg functions
- Heavy Duty 225kg Safe Working Load
- Full length sliding X-ray deck ensures complete spinal coverage
- Comfortable 100mm foam mattress with multi-stretch cover
- Safety straps for staff and patient security
- CPR functions integrated on either side for rapid response time
- Collapsible vertical side rails fold away below the patient surface
- Fold-away carer push handles to maximise workspace

- 200mm castors minimise rolling resistance
- Fifth wheel improves steering and reduces manual handling burden in transportation
- Central and Directional Locking functions
- Molded base cover facilitates cleaning and supports infection control processes
- Large corner bumpers minimise wear and tear on equipment and facilities
- Intuitive design and function layout from Red Dot design winning team
- Standard Inclusions: Mattress, IV Pole, O2 Holder, Uring Bag Hooks & Accessory Slots

Code	TSE674230
Overall Length	2140mm
Overall Width	840mm
Overall Height	600 - 910mm
Patient Surface Length	1920mm
Patient Surface Width	600mm
Backrest Angle	0° to 70°
Trendelenburg	-12° to 12°
Castor Size	200mm
SWL	225kg

Maternity & Birthing

Paediatric Cot - Manual

Code	WAT830550
Overall Length	1430mm
Overall Width	875mm
Overall Height	1560mm
Patient Surface Length	1215-700mm
Patient Surface Width	700mm
Trendelenburg	12°
Castor Size	150mm
SWL	40kg

- Stainless steel & powder coated aluminium construction
- Soft internal edge design
- Smooth glide side and end panels
- 12° Trendelenburg
- Lightweight aluminium side and end panels
- Buffers
- Hand or knee operated panel latch
- Obstruction free base design for access on all sides and ends
- Castor Options:
 - 100mm castors
 - 125mm castor
 - 125mm turn wheel castors
 - Central locking

Aspire Gynaecology Delivery Bed

Designed to deliver safe, fast, effective care in the busiest of ward environments

- Retractable leg section, easily and quickly slides under the bed and out of the way for delivery.
- Single action gas assisted side rails minimise transfer gaps for patient transfer
- Integrated gynae cut-out promotes accessibility and effective positioning
- Ergonomically designed patient handles
- Removable padded leg supports maximise patient postural support and can be safely stored when not in use.
- Electrically adjustable for patient comfort and clinically correct positioning
- Comfortable 2-section mattress includes multi-stretch cover for patient comfort and improved infection control
- Intuitive Linak hand control and electronics for reliability and simplicity of servicing
- Integrated Trendelenburg capabilities support clinical outcomes and facilitate manual handling
- Stainless steel bowl with easy access positioning
- Tente 125mm Central locking castors with directional functionality
- Standard Inclusions: Mattress, IV Pole, Wall Buffers, Urine Bag Holder, Belt Hooks & Accessory Slots
