HEALTHCARE EQUIPMENT

 **MALVESTIO**[®]
Made in Italy

Attendant Control Panel with an intuitive push button layout.

The **TRANSLATION** of the backrest **ENHANCES BREATHING** by reducing pressure on the plexus area.

Backrest **TRANSLATION** also helps to redistribute pressure more evenly for improved comfort and skin integrity.

Scope for Changing Needs

Adjustable Mattress Platform

The mattress platform offers tool free adjustment from 102cm to 122cm in width.

400kg
Safe working load

Bed Extension

The mattress platform can be extended by up to 18cm with a padded mattress bolster available as an optional accessory.

Features

Low height of 38cm
4 x section electrically operated bariatric ward bed
Adjustable mattress platform with tool free adjustment from 102-122cm
Bed ends can be adjusted in width to suit mattress platform adjustment
Legrest adjustment is ergonomically synchronised with the knee break
Integrated bed length extension up to 18cm
IV & Self-Help Pole mounting brackets
Electric height adjustment with 2 x heavy duty actuators for a Safe Working Load (SWL) up to 400kg
Attendant control panel with intuitive button placement for bed control
Bed is equipped with battery backup as standard, allowing for power supply when transporting around wards or in the event of a power failure/outage
Translating backrest (Auto-Regression) shifts backwards by 11cm to compensate for patient movement towards the foot end of the bed as the backrest is raised.
Folding side rails as standard
Base frame is equipped with 150mm twin wheel castors featuring a centralised locking system that can be operated by foot pedals on either side of the bed end
Epoxy powder coating with antibacterial finish for improved infection control

Epoxy powder coating with antibacterial finish for improved infection control
